

Aviation Weather Analysis and Beginning Self-Briefing

In this three hour. interactive course, we will cover basic weather system characteristics, analyzing satellite and beginning radar as well as tips for anticipating possible unforecast weather. We'll also discuss mountain flying and tools to enhance your safety.

Next, we'll cover in detail, my favorite tools for self-briefing. We'll wrap it all up by walking through several weather briefings and analyzing potential hazards. Click here to register.

Directions: Samson Hangar, but may be moved to the big hangar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
